Dear Parent/Carer/Legal Guardian

Re: Year Six On-Line Health Surveillance Questionnaire 2024/25.

The Department of Health recommends that children in Year Six receive a health review by the School Nursing Team.

In order to achieve this, each child in Year 6 will be provided with the opportunity to complete an online Health Surveillance Questionnaire in School, that asks about their general health and emotional wellbeing. This questionnaire also provides general information in the form of a personalised health care plan that will be sent to your child's personal email account in School, for them to review/ print.

Following the questionnaire being completed, a member of the School Nursing Team will assess the responses provided and may wish to see your child in school, to gain further information on the answers that your child has given, or if your child has requested to see a member of the School Nursing Team. This meeting would be on a private 1-1 basis in School.

If we see your child in School, we will give them a letter to inform you of this. We may also need to contact you to gain some further information. We encourage you to speak with your child about the outcome of their questionnaire and discuss their personalised health plan.

The personal information collected from this questionnaire will be treated as confidential. Anonymous and collective information may be shared with our partner agencies to improve services to children. If you wish to contact the School Nursing team to discuss this further, please telephone the above number.

You and your child might like to access www.healthforkids.co.uk which will provide information and support about children's general health and emotional wellbeing.

If you do not want your child to participate in the Year 6 Health Questionnaire, please contact the School Nursing Team to make them aware.

You will need to do this within 5 working days from receiving this letter on 0121 726 6754.

Kind Regards,

Solihull School Nursing Team.
